New York (City) Board of education.

This heading is used for the publications of the Board of education (the official name of the department of education) and also for the publications of the Executive committee which heads the educational organization.

The name of the Board of education was officially changed to Department of education at the time of the adoption of the 1896 charter and back to Board of education with the adoption of the 1903 charter.

Terminology was uncertain however during much of the forty years and has been further confused by the use of the name Board of education to refer to its Executive committee.
